Graduate in work-study interaction design master's degree, I am looking for an internship until the end of August 2021. Passionate about music and tangible interaction, I would love mixing both in your company.

Work Experience

2019 - 2021 Work-study master's degree in startups at Centech (world leading deeptech incubator in Montreal, Canada)

↳ **5 months** Lead product designer at Connektica (Startup)

- Designed a platform for radio-frequencies tests of aerospace components

↳ **8 months** UX/UI designer at Vyoo (Startup)

- Designed 2 demonstration prototypes of 3D scanning apps for shoes e-commerce and hardware store professionals

↳ **7 months** Lead product designer at Upscale (Startup)

- Iteratively designed the Uptune App (mobile/tablet/desktop), an app for Live musicians providing:
 - Soundcheck assistance with Volume Balancing and Feedback Loop Frequency Identification tools
 - A Setlist Creation tool with customisable links to rehearsal material
- Defined product vision and backlog with CEO and CMO. Designed wire-frames, mockups, the app icon, the UI kit, illustrations, loading screens and micro-interactions. Conducted user tests.
- Graphic design for marketing purposes (prints, social media, pitch decks, landing pages ...)

2017, 5 months Product and web designer at Vahumana - Internship

- Designed and created the Tryhard app, a community and video driven longboard dancing learning app
- Designed Vahumana's website

2016, 1 month Web Designer at Useway - Internship

2013 Discovery of the air intake design team at Renault Trucks (Internship)

Education

2019 - 2021 Work-study master's degree in global design at the Montreal studio (Canada) of L'École de design Nantes-Atlantique - End of study project on social interaction within the digital concert

2017 - 2019 Bachelor's degree in interactive design (UX/UI) at L'École de design Nantes-Atlantique - Final project on tangible interaction with modular synthesizers

- Studied creative methodology through projects (Strategic watch, Ideation, Prototyping and User testing)

2016 MOOC IDEA - Design thinking online class (EM Lyon / Centrale Lyon)

2013 - 2016 High school diploma in sciences with arts class. Delegate and "eco-delegate" of the boarding school

Music

Since 2019 Hardware/modular Techno sets - assisted by my own melody generator coded in Pure Data

December 2018 "Motion" solo EP - 16 tracks made in 1 week each as part of a challenge

March 2018 "Improve" solo EP - 4 tracks

Since 2015 Music creation and Mixing

Since 2005 Multi-instrumentalist (drums, guitar & keys)

Languages

French Native Language

English Full professional proficiency (toeic 985/990)

German Basics
